

THE SOLOMON ACCORDS DECLARATION

We, the undersigned, recognize the importance of maintaining and strengthening peace in the Middle East and around the world based on mutual understanding and coexistence, as well as respect for human dignity and freedom, including religious freedom.

To permanently resolve decades of territorial conflict and ensure mutual prosperity for generations to come, we hereby establish the framework for the peaceful, voluntary relocation of the Dome of the Rock and the resettlement of the Palestinian people to a sovereign sanctuary: **ALAtlantis**, the **New Palestine**. This unprecedented action facilitates the historic reconstruction of the Third Temple of Solomon in its rightful place, forging a definitive path where all peoples can live in enduring peace and security.

Recognizing the necessity of a vast, secure, and geopolitically neutral foundation to guarantee absolute sovereignty and safety, this new nation will be established in the expansive territory of Northern Mauritania. This location offers the immense scale required to build a modern civilization without the constraints of contested borders.

To guarantee a dignified and prosperous transition, a comprehensive global coalition will authorize the massive, sustained funding required to build a thriving nation from the ground up. This capital will construct hundreds of thousands of modern housing units, alongside vital infrastructure including advanced hospitals, schools, and sustainable solar energy grids, completely replacing foreign dependency with total economic self-reliance.

Central to this economic foundation is **The Olive Peace Initiative**. The olive branch held by the American Bald Eagle reflects the United States' ultimate commitment to peace, while the olive tree embodies the enduring resilience and national identity of the Palestinian people. Through this Accord, the United States extends these olives not merely as a symbol, but as a tangible economy. The planting of millions of olive groves in **ALAtlantis** will provide immediate vocational training, massive job creation, and sustainable agriculture.

We seek tolerance and respect for every person in order to make this world a place where all can enjoy a life of dignity and hope, no matter their race, faith or ethnicity. This initiative honors the legacy of those who seek peace and ensures that the rubble of despair is transformed into a beacon of hope.
